### Interviewer Introduction:

My name is \_\_\_\_\_ and I am with (college/program/department). We are working to ensure that students in recovery from a substance use disorder on our campus have what they need to thrive academically and in their recovery.

Today we are undertaking a process called Community Mapping – an inventory of people, programs and services that we will use to help students in recovery to thrive in the fullness of the college experience. Specifically, we are identifying on and off-campus resources for community-building efforts aimed at supporting these students. Thank you for taking the time to speak with us.
